

MOUNTING INSTRUCTIONS

⚠ Warning!

It is advisable to have an Öhlins dealer install the shock absorber.

⚠ Warning!

If working on a raised vehicle, ensure it is securely supported so that it will not tip over.

👁 Note!

Before mounting this product clean the vehicle thoroughly.

👁 Note!

When working on this product, always see the Vehicle Service Manual for vehicle specific procedures and important data.

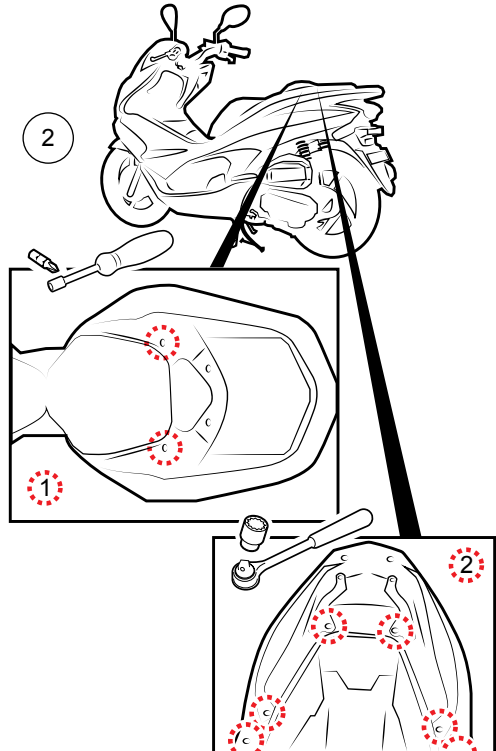

1

Put the motorcycle on the center stand so that the rear wheel barely touches the ground.

2

Open the seat and remove the groove by loosening two screws (1). Then loosen four bolts and loosen two screws (2).

MOUNTING INSTRUCTIONS

3

Remove the center compartment by loosening four bolts, then unlock the battery cover and loosen two nuts.

4

Remove the standard shock by loosening the upper nut then loosen the lower bolt. Install the Öhlins shock by pointing the cylinder head downward. Reverse all procedures above to reassembly the motorcycle.

Note!

Lower the vehicle so that the suspension is slightly compressed before tightening the screws.

Caution!

Ensure that all screws are tightened to the correct torque and that nothing fouls or restricts movement of the shock absorber when the suspension is fully compressed or extended.

ADJUSTMENTS

⚠ Warning!

Before riding, always make sure that the basic settings made by Öhlins are according to recommended Set-up Data. Read about adjustments and setting up in the Öhlins Owner's Manual before you make any adjustments. Contact an Öhlins dealer if you have any questions about setting up.
